

Zonal level Science Exhibition

On 30/8/2018 Thursday, our students Chaitanya of class VII D and Shanshrey of class IX C participated at Zonal level Science Exhibition and got the first prize. This was a huge platform where the student of TAFS proved themselves.

They have made a model named '**City 2030**' under the theme **resource management**. This model explained utilization of natural resources wisely to support sustainable development of our mother earth. The model was appreciated by the judges.
