

MATHS WEEK

(26-10-2020 TO 29-10-2020)

MATH O MANIA

Report - Class VI

MY TANGRAM ZOO !!!

The ancient Chinese art of **tangram** puzzles is a popular mathematical problem solving **activity**, finely tuned to bring out the best in pupils. The **tangram** puzzle consists of 7 geometric pieces which are normally boxed in the shape of a square.

Students of class VI were given an opportunity to create a tangram zoo of their choice. Students have shown active participation in making tangram animals. The students created their own shapes of animals.

This activity enhanced the problem solving skills of students. In particular, playing with tangrams boosts spatial skills, enhance maths performance and stimulate maths skills. All students enjoyed learning while playing.

The best entry from each section is mentioned below:

VI A- Vishvesh kumar Shukal

VI B- Shreyas Sahoo

VI C- J Sahasritha

VI D- Bhavya Saini

VI E- Arshiya Singh
